## SHIP SUBSIDY BILL

It Passes the Senate by a Vote of 42 to 31.

### AMENDMENTS MADE.

Those That Were Adopted Were Agreeable to Those in Charge of the Measure—McLaurin Only Democrat Voting for Bill.

Washington, March 18.—After prolonged debate the senate Monday passed the ship subsidy bill, the final vote upon the measure being 42 to 31. Senators Allison and Dilliver of Iowa, Spooner and Charles of Wisconsin and Proctor and Dillingham of Vermont, Republicans, voted against final passage of the bill and Senator McLaurin of South Carolina, voted for it. Some amendments to the bill were adopted but they were all agreeable to those in charge of the measure, the friends of the bill voting down all other amendments. With the exception of amendments offered by Mr. Allison and accepted by Mr. Frye, limiting the time of the operation of contracts made under the provision of the bill to July 1, 1902, and providing that the amount of the expenditure under the mail subsidy paragraph should not at any time exceed \$8,000,000 annually, none of the amendments agreed to materially affected the bill as it was reported from the commerce committee.

The voting upon amendments began at 3 o'clock and such a flood of them were offered that a final vote upon the bill as amended was not reached until just before 6 o'clock.

Amendments offered by Mr. Vest of Missouri, providing for "free ships" and for the application of the provisions of the anti-trust law to the shipping industry were rejected, as was the amendment proposed by Mr. Patterson of Colorado, providing that no Chinese person should be a member of the crew of a subsidized vessel.

Mr. Pettus of Alabama, offered an amendment providing that the total expenditure under the bill should not exceed \$9,000,000 in any one year. It was adopted in committee, but later in the senate was rejected by a decisive vote.

An amendment offered by Mr. Spooner was adopted providing that congress should have power to amend or repeal the act without impairing any contract made under its authority.

Three amendments by Mr. Hanna were excepted applying to the acquisition by J. Pierpont Morgan and his associates of the Leyland Line of British ships. They provide that no foreign built ship shall participate in the proposed subsidy; that nothing in the act shall be construed to prevent American citizens or corporations from holding or operating foreign ships in the ocean carrying trade; and that no foreign built ship of any line thus acquired by American citizens shall be admitted hereafter to American registry.

The title of the bill passed by the senate is: To provide for ocean mail service between the United States and foreign ports and the common defense; to promote commerce and to encourage the deep sea fisheries.

Title 1 of the measure deals with ocean mail steamships and their subsidies. The postal subsidy act of 1891 is so amended as to direct the postmaster general to enter into contracts for not less than five, nor more than fifteen years with American citizens for the carrying of mails on American steamships to such foreign points as will best promote the postal, commercial and maritime interests of the United States; the mail service on such lines to be equitably distributed among the Atlantic, Mexican Gulf and Pacific ports and the contracts to be made with the lowest responsible bidder.

The vessels employed in the mail service shall be American built and owned and officered by American citizens. During the first few years one-fourth of the crew must be American citizens, during the next three years, one-third must be American citizens and during the remaining life of the contract at least one-half must be American citizens. The ships must be screw ships of iron or steel and divided into the following classes, according to speed:

First, 20 knots or over; second, 19 knots; third, 18 knots; fourth, 17 knots; fifth, 16 knots; sixth, 15 knots; seventh 14 knots.

All ships of the first four classes shall be constructed with particular reference to prompt conversion into auxiliary naval cruisers, and shall be of the highest rating known to maritime commerce.

The rate of compensation for ocean mail service "to be paid per gross registered ton for each 100 nautical miles sailed from the port of clearance in the United States to the port of entry in the United States, according required by the postoffice department, shall not exceed the following:

Steamships of the first class, two and seven-tenths cents; second, two and five-tenths cents; third, two and three-tenths cents; fourth, two and one-

tenth cents; fifth, one and nine-tenths cents; sixth, one and seven-tenths cents; seventh, one and five-tenths cents.

The rates of compensation to any vessel carrying mails to a foreign port in North America shall not exceed 70 per cent of the maximum rates established.

Mail steamships are required to carry as apprentices one American-born boy for each 1000 tons gross register. He shall be educated in seamanship and engineering, and rank as a petty officer. Title 2 of the bill provides for the

general subsidy to be paid. It directs the secretary of the treasury to pay to the owners of any vessel in the United States, duly registered and engaged in the foreign trade of the United States, a compensation amounting to one cent per gross registered ton for each 500 nautical miles sailed, not exceeding sixteen entries in any one year, and on each entry not exceeding sixteen in any one year, for a period of five years from the date of registration of a vessel of 1000 gross tons which shall be completed after the passage of this bill, one-fourth of one cent per gross ton for each 100 nautical miles sailed in accordance to the above-mentioned compensation. The bill specifies certain vessels which shall not receive compensation under its provisions, among them being vessels engaged in the coastwise trade exclusively.

Each subsidized vessel is required to carry as a member of its company one American boy for each 1000 gross tons, who shall be taught seamanship and engineering. The owners of the vessel must agree before receiving compensation that the ship in emergency may be used by the United States for the national defense or for any public service at a fair valuation.

Title 3 of the bill directs of the secretary of the treasury to pay to the owner of a documented vessel engaged in deep sea fishery for at least three months in any one year two dollars per gross ton per annum, provided that at least one-third of the crew shall be citizens of the United States, and he is directed to pay also to a citizen of the United States serving as a member of such crew one dollar per month for the time he is necessarily employed.

Title 4 provides that no vessel shall be given compensation under two or more titles of this act at the same time; that a subsidized vessel shall not be sold to a subject of a foreign power, and that the president of the United States shall cause proper regulations to be framed for the execution of this act.

### The House.

Washington, March 18.—The house Monday began consideration of the river and harbor bill. Mr. Burton of Ohio made an extended speech in explanation of the measure, in the course of which he presented many interesting facts relative to it.

Several other members spoke briefly to the measure, against them being Mr. Bellamy of North Carolina, who protested against the treatment his state had received. Mr. Foster of Illinois and Mr. Cochran of Missouri discussed the Boer war, criticising the majority severely for failure to allow congress to express the sympathy of the American people with the struggling republics.

At the conclusion of the proceedings Mr. Wachter of Maryland denied a newspaper story to the effect that Speaker Henderson had attempted to influence his course on the question of Cuban reciprocity.

### Two Vetoes.

Washington, March 18.—When the senate convened to-day two veto messages of the president were laid before that body and ordered printed. The first was a veto of an act to grant an honorable discharge from military service to Charles H. Hawley, and the other was a veto of an act for the relief of James W. Howell.

### Lyon Succeeds Glenn.

Washington, March 18.—When the house met today Frank B. Lyon, of Cuba, N. Y., was elected doorkeeper to succeed the late H. J. Glenn. The oath was immediately administered to Lyon by the speaker.

### To Repeal War Revenue.

Washington, March 18.—The senate committee on finance has concluded consideration of the bill repealing the war revenue act and authorized a favorable report on it. The bill is greatly changed in phraseology and it is announced it will probably not be in shape to be reported before Tuesday.

### Presidential Nominations.

Washington, March 18.—The president has sent the following nominations of Texas postmasters to the senate:

James A. Gammit, Calvert. Florence Shearby, Elgin. William P. Fleming, Georgetown. Fritz A'Hearn, Grantsbury. Oklahoma—Ida McKean, Lexington.

### Commissioner Evans Will Retire.

Washington, March 18.—There is no longer any doubt that Pension Commissioner Evans will in the next few months at least sever his connection with the pension bureau to accept from the president a position which will be a substantial promotion, but which has not yet been definitely selected. It is well known that Mr. Evans has the entire confidence of the president, and the latter will not consider the question of his retirement until a position entirely satisfactory to the commissioner has been provided.

No decision has been reached concerning a successor to Mr. Evans, nor will any action be taken until the president is thoroughly convinced that he has a man of the same high

### A CRITICISM OF PROF. MALLY.

Mr. J. A. D. Robinson asks the  
Eagle to print the following article  
which he recently wrote for Texas  
Farm and Ranch, and which was  
published in Farm and Ranch last  
week. Mr. Robinson says his only  
desire in the matter is to correct  
erroneous impressions:

Editor Farm and Ranch:—I clip  
the following from a recent issue of  
Farm and Ranch, concerning Prof.  
Mally's lecture on the boll worm,  
as reported in the Paris News:

"He touched upon the ruthless  
killing of birds, and urged the  
passage of laws prohibiting their  
destruction. He was asked if quails  
were destructive to insects and an-  
swered in the affirmative. They  
are more destructive than any other  
of the feathered tribe."

Now I would like to take issue  
with Prof. Mally on this statement  
regarding quail being destructive  
to insects. I am a farmer and have  
been a personal observer of quail  
and their habits for the past thirty  
years. During that time I have  
netted and shot, cleaned and  
dressed ten thousand of these birds.  
From this experience I ought to  
have learned something about what  
the quail feeds on, and I have  
done so. I am prepared to state,  
therefore, from personal knowledge  
that the quail is not a bug-eater, or  
a worm eater. It feeds upon pure  
vegetable food—seeds, grass and  
grain. I will give \$1 for every  
partridge Mr. Mally will bring or  
send me with a bug or worm in its

crop, with assurance that the bird  
voluntarily ate it. I have studied  
the feeding habits of birds with the  
view of most successfully hunting  
them. Knowing what they feed  
on, I can judge when and where  
to find them in more or less abun-  
dant. I believe in the strict en-  
forcement of game laws, and always  
observe them myself, but only to  
carry out the purpose of that law,  
and have a fair supply of quail in  
the country during the hunting  
season, but I take no stock in the  
sentiment that forbids the reason-  
able use of these birds as God in-  
tended them to be used, as a pure  
food for man. The quail furnishes  
the purest, whitest, most whole-  
some food for man in the way of  
flesh, and is a blessing for this  
reason, and not as a bug or insect  
destroyer, as so often stated. I  
wish to say that such reckless state-  
ments as the above by Prof. Mally  
are calculated to do great harm.  
Many people know they are erro-  
neous and will lose their regard  
for all of Mr. Mally's statements,  
thus destroying his usefulness, if  
he does not use more care in his  
statements. By this quail talk of  
his, I am reminded of other state-  
ments he made in this section of  
the state last summer, in public  
addresses, which in my humble  
judgment were erroneous. One  
was, in a speech made at Bryan in  
the spring of 1901, that unless the  
remedy he advised be adopted,  
there would not be a cotton bloom  
to be seen in this section after a  
certain date, about the first of July.  
Now many farmers totally neg-  
lected his preventatives, or any  
means whatever to fight the boll  
weevil, and yet made good crops.  
As a friendly critic of Mr. Mally, I  
would urge him to be more cau-  
tious. People who know the fallacy  
of his statement about the quail,  
for instance, will discredit his other  
statements, even those which are  
correct. The quail, while a feeder  
on grain and grass seeds, is not a  
destructive bird to the farmers' crops.  
It does not pull up corn or  
eat grain except where it is on the  
ground and would otherwise go to  
waste. The partridge, while not a  
bug-eater, is an unmixed blessing  
to man, and under our game laws  
where enforced is properly treated.  
I would like to understand Prof.  
Mally's position and will ask him  
to answer these questions through  
Farm and Ranch: (1) Are you  
opposed to shooting quail in the  
present hunting season? (2) Do  
you know from personal knowledge  
that the quail eats insects or bugs?  
Some farmers, believing the talk  
about boll weevil, have utterly  
refused to shoot or allow others to  
shoot them on their premises, even in  
hunting season. This is a mistaken  
idea, I believe, and if one with a  
weevil-infested farm is depending  
upon quail to destroy the pest, the

**He Falls at Seguin Severely Spraining  
His Ankle.**  
Seguin, Tex., March 18.—General  
John B. Gordon had the misfortune  
of falling in front of the Grand Cen-  
tral hotel in this city Monday, severely  
and painfully spraining his ankle. He  
filled his engagement, however, at  
night in his lecture on "The Last Days  
of the Confederacy."  
Hundreds attended the reception  
tendered him by Senator Dibrell and  
wife. Owing to the accident he was  
compelled to sit during the greater  
part of the reception.

### Waked into a Trap.

South McAlester, I. T., March 18.—  
Two men were bound over here in  
\$7000 on a charge of burglarizing the  
postoffice at Holleman the 10th inst.  
It transpired that the two men were  
decoyed into the robbery by the United  
States officer through a confederate.  
The officer had hauled a safe to Holle-  
man, put United States mail in it to  
make the offense aggravated and the  
confederate hired the team and stood  
guard for the dupes as they walked  
into the trap set for them.

### The Blizzard Subsidized.

St. Paul, March 18.—The great bliz-  
zard which has raged over the Dakotas  
and Manitoba since last Friday has  
subsided, but intensely cold, the ther-  
mometer ranging from 10 to 16 below  
zero. With the subsidence of the  
storm the railroads are bending their  
energies to again open their lines for  
traffic and immense rotary snow plows  
and gangs of men with pick and shovel  
are attacking the mountainous drifts  
that block the tracks.

### Negro Poisons a Family.

Washington, N. C., March 18.—Dr.  
C. Taylor, one of the state board of  
medical examiners, and his entire fam-  
ily were poisoned here from coffee and  
hash containing arsenic put there by a  
negro driver, who had often threatened  
to "poison" the negro nurse. Quick aid  
saved the poisoned family, all of whom  
were seriously ill. The negro is in  
jail and confessed that he put the poi-  
son in the coffee and hash, but only  
to kill the old nurse who had "con-  
jured" him.

### Spain's New Cabinet.

Madrid, March 18.—The composition  
of the new cabinet, which the queen  
regent commissioned Senor Sagasta  
to form, is practically settled. Senor  
Sagasta is to be premier; General  
Weyler is to be minister of war;  
Senor Moret is to be minister of the  
interior; the duke of Almodovar will  
fill the post of minister of foreign af-  
airs, while Senor Calejias is to be  
minister of public works.

### Aged Woman Dead.

Beaumont, Tex., March 18.—Mrs.  
Daniel McGary, aged 70 years, wife of  
"Uncle Daniel" McGary, the oldest  
and best known newspaper man in  
Texas, died at the family residence in  
North Beaumont Monday night from  
pneumonia. She was the mother of  
Samuel H. McGary, editor of the Jour-  
nal, and leaves several other grown  
children in the state.

### St. Louis Not Responsible.

St. Louis, March 18.—Circuit Judge  
Fisher has decided that the city is not  
responsible for damages in the deaths  
of the thirteen children who died some  
time ago from tetanus, caused by the  
administration of anti-toxine procured  
from the board of health. Judge Fisher  
holds that the city acted for the state  
of Missouri, which cannot be held li-  
able.

### Wise County Dry.

Decatur, Tex., March 18.—In the pro-  
hibition election in Wise county last  
Saturday 3853 votes were cast. Of this  
number 2606 were for prohibition and  
1247 against prohibition, making the  
majority for prohibition 1359. This is  
about 600 more than the majority for  
prohibition in this county two years  
ago.

### Killed by a Shock.

Crockett, Tex., March 18.—About  
ten miles north of here Jim Barrow  
was shot and instantly killed by John  
Hearn. Mrs. Hearn was so shocked  
by the tragedy that she dropped dead  
almost as soon as Barrow was shot.  
The cause of the killing was that  
Hearn objected to Barrow's attentions  
to his young daughter.

### Maids of Honor for Tennessee.

Chattanooga, March 18.—Miss Sarah  
Frazier, sponsor for Tennessee at the  
Dallas Confederate reunion, has ap-  
pointed Miss Grace Heiskell, daughter  
of Judge Heiskell of Memphis as  
chief maid of honor and Mrs. Samuel  
McKinney of Knoxville as matron of  
honor.

### Judge Reagan Improves Slowly.

Austin, March 18.—Judge Reagan  
continues to improve at Palestine, but  
it will be some time before he re-  
turns to Austin. Commissioners Storey  
and Mayfield are here and will sit in  
the cases set down for hearing this  
week.

### Schley Will Visit Austin.

Austin, March 18.—In a letter to the  
city council Admiral W. S. Schley says  
he will visit Austin next fall. The  
council passed a resolution extending  
an invitation to him to visit Austin  
while on his southern tour.

### Steamers Navigating Lake Michigan.

Chicago, March 18.—Steamers are  
beginning to run across Lake Michi-  
gan and with this opening of naviga-  
tion will come a renewal of the war  
for through traffic to Grand Rapids.

### Troops Leave Norfolk.

Norfolk, March 18.—Troops which  
have been on duty here during the  
strike of street car men, have left for  
their homes. It is thought by many  
it may be necessary to recall them.

### Suicided With Morphine.

Oklahoma City, O. T., March 18.—K.

suicide here by taking morphine.

### A CRITICISM OF PROF. MALLY.

Mr. J. A. D. Robinson asks the  
Eagle to print the following article  
which he recently wrote for Texas  
Farm and Ranch, and which was  
published in Farm and Ranch last  
week. Mr. Robinson says his only  
desire in the matter is to correct  
erroneous impressions:

Editor Farm and Ranch:—I clip  
the following from a recent issue of  
Farm and Ranch, concerning Prof.  
Mally's lecture on the boll worm,  
as reported in the Paris News:

"He touched upon the ruthless  
killing of birds, and urged the  
passage of laws prohibiting their  
destruction. He was asked if quails  
were destructive to insects and an-  
swered in the affirmative. They  
are more destructive than any other  
of the feathered tribe."

Now I would like to take issue  
with Prof. Mally on this statement  
regarding quail being destructive  
to insects. I am a farmer and have  
been a personal observer of quail  
and their habits for the past thirty  
years. During that time I have  
netted and shot, cleaned and  
dressed ten thousand of these birds.  
From this experience I ought to  
have learned something about what  
the quail feeds on, and I have  
done so. I am prepared to state,  
therefore, from personal knowledge  
that the quail is not a bug-eater, or  
a worm eater. It feeds upon pure  
vegetable food—seeds, grass and  
grain. I will give \$1 for every  
partridge Mr. Mally will bring or  
send me with a bug or worm in its

crop, with assurance that the bird  
voluntarily ate it. I have studied  
the feeding habits of birds with the  
view of most successfully hunting  
them. Knowing what they feed  
on, I can judge when and where  
to find them in more or less abun-  
dant. I believe in the strict en-  
forcement of game laws, and always  
observe them myself, but only to  
carry out the purpose of that law,  
and have a fair supply of quail in  
the country during the hunting  
season, but I take no stock in the  
sentiment that forbids the reason-  
able use of these birds as God in-  
tended them to be used, as a pure  
food for man. The quail furnishes  
the purest, whitest, most whole-  
some food for man in the way of  
flesh, and is a blessing for this  
reason, and not as a bug or insect  
destroyer, as so often stated. I  
wish to say that such reckless state-  
ments as the above by Prof. Mally  
are calculated to do great harm.  
Many people know they are erro-  
neous and will lose their regard  
for all of Mr. Mally's statements,  
thus destroying his usefulness, if  
he does not use more care in his  
statements. By this quail talk of  
his, I am reminded of other state-  
ments he made in this section of  
the state last summer, in public  
addresses, which in my humble  
judgment were erroneous. One  
was, in a speech made at Bryan in  
the spring of 1901, that unless the  
remedy he advised be adopted,  
there would not be a cotton bloom  
to be seen in this section after a  
certain date, about the first of July.  
Now many farmers totally neg-  
lected his preventatives, or any  
means whatever to fight the boll  
weevil, and yet made good crops.  
As a friendly critic of Mr. Mally, I  
would urge him to be more cau-  
tious. People who know the fallacy

### "American Wine for Americans."

Escapernong wine is purely an American product, manufactured from a peculiar variety of luscious grapes, produced only in a limited area on the Atlantic coast. For one hundred years Escapernong wine has been a favorite with those who appreciate a pure, wholesome, fruity wine of delicate aroma, delightful bouquet and "farewell," and moderate price. Especially has it been a favorite with ladies for a dinner wine. This wine is also made in "Extra Dry" and "Special Dry," of the same high grade, but not so sweet. Taylor & Cox have just received a new shipment. 90

The Knights of the Maccabees met Monday night and six new members were admitted by initiation. Thirteen applications were voted on at the meeting. Another meeting will be held next Monday night. Deputy Supreme Commander Wagar is doing good work for the lodge.

### BLIND TOM COMING.

Will Appear at the Opera House, Saturday, March 22.

Blind Tom, the wonderful and world-famous musical prodigy, will visit Bryan again and appear at the Grand opera house Saturday night, March 22.

The story of Blind Tom's untutored and phenomenal skill with the piano is familiar in every household in the United States, and his character has

long ago become historical, so long and successful has been his career. He has delighted audiences with his wonderful performances in all parts of the world, and age has not impaired the singular power of his genius. Those who have heard him and those who have not are equally interested in his visit. Remember the date—Saturday, March 22.

### CANNING FACTORY AT MILLICAN.

A Ten Thousand Can Plant to be Installed There at Once.

Arrangements are about consummated to put in a canning factory of 10,000 cans capacity a day at Millican.

This information came to the reporter yesterday in an interview with one of the promoters of the enterprise there. Mr. Player's gin house and boiler will be used, and about \$600 in cash has been subscribed to date to buy machinery and install the same. This is nearly enough, and there is said to be no doubt about the remainder being raised. The business men of Millican took hold of the matter readily, \$5 being the smallest subscription and running from that to \$200.

The promoters are expecting to buy some of the truck to run the plant from the truck growers about Bryan if the move for a cannery here fails, which seems to be the present prospect. The assurance of a market, however, will stimulate planting on a large scale in that section.

A small pickling outfit will also be installed in connection with the cannery, so our informant believes.

Mr. F. W. Yeager, in conversation with the Eagle reporter about the matter yesterday, seemed to think that there is little doubt now of the plant being put in, and will know definitely by the last of this week. We are glad to note this evidence of progressiveness on the part of our neighbors at Millican. That's the way to build up their town and section.

Burt Norwood is agent for the fashionable and up-to-date "New Idea Patterns," 10 cents each. These patterns are guaranteed perfect in fit when cut according to directions. 91

The house occupied by W. P. Walling in the western part of town was burned last night. Loss could not be learned.

Bishop Kinsolving, who arrived yesterday, held confirmation services at the Episcopal church last night.

### DISTRICT COURT.

In the district court, Frank Johnson, colored, charged with the theft of property over the value of \$50, and with burglary, was given two years in the penitentiary in the first case and five years in the penitentiary in the burglary case. The crime was the burglary of Mr. J. T. Hines' residence in this city last October while the Sells-Forpaugh show was in town.

Lige Hays, the negro boy charged with the murder and robbery of the old negro, Fred Melton, near Benchley, entered pleas of guilty and was sentenced to the penitentiary for five years in the robbery case, and for life for the murder. It will be remembered that the old negro, Melton, was knocked in the head, robbed and left alone in the woods where he lay in a ditch unconscious for two or three days. Finally recovering sufficiently to move, he made his way to the house of another negro, where he subsequently died.

### WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even the greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is a certain cure for coughs, colds and all bronchial troubles. You can get all of Dr. G. G. Green's reliable remedies at the Wilson-Jenkins Drug Co's. store, Bryan. ## TWELVE LIVES LOST ATLANTIC TO PACIFIC

Seven Life-Savers and Five of a Crew Go Down.

### SOME HEROIC WORK.

The Boat of the Life-Savers Overturn Returning to Shore and One by One the Men Dropped Off from Sheer Exhaustion.

Chatham, Mass., March 18.—Seven lifesavers, practically the entire crew of the Monomoy station on the south end of Cape Cod, met death Monday at their post of duty, and with them into the open sea, which capsize the lifeboat, went five men from the stranded barge Wadena, whom they tried to bring in safety to the shore. The shore man, Norman Ellis, through heroic work of Captain Elmer Mayo, of another stranded barge, the John C. Fitzpatrick, was rescued from the bottom of the upturned lifeboat. Among those lost was William Mack of Cleveland, O., who was on the barge representing his company, the Boutelle Towing and Transportation company of that city, while Captain Marshal N. Eldredge, one of the oldest lifesavers on the coast, went down with his men. All the lifesavers came from Chatham and Harwich. The names of those lost are as follows:

Marshal N. Eldredge, keeper, South Chatham.

Edgar Small, Harwich.

Elijah Kendrick, Harwich.

Osborne Chase Harwich.

Arthur Rogers, North Harwich.

Isaac T. Foye, South Chatham.

Valentine Nickerson, Harwich.

All the above were lifesavers.

The following men were from the barge:

William H. Mack, Cleveland, O.

Captain Christian Olsen, Boston.

Robert Molineux, Boston, steward of the tug Peter Smith.

Walter A. Seved, Cottage City.

Manuel Enos, Cottage City.

The scene of the accident was in the well known tide off Monomoy Point, which runs down from Chatham in Nantucket sound.

Last Thursday the barges Wadena and John C. Fitzpatrick, on the way to Boston with cargoes of coal stranded on the Shovel shoals, about three-quarters of a mile off Monomoy Point. Since then every effort has been made to float the barge. Sunday night the tug Peter C. Smith, which has been lying beside the barges, ran alongside the Wadena and told those on board that a storm was coming on. All the wreckers were taken on board the tug with the exception of the five men who met their fate. Mr. Mack, who had come on from Cleveland, refused to leave, and ordered the captain of the Smith to anchor near by. At 8 o'clock the weather growing very thick, the captain of the tug decided to run into Hyannis. There the captain tried in vain to notify the Monomoy lifesavers that there were five men left on board the Wadena. Monday forenoon Captain Eldredge sighted signals of distress on the Wadena. He got out his crew and surfboats. The crew had no difficulty in getting off, but after rounding the point it took nearly an hour to reach the barge. By that time the tide had turned to the eastward, and a fierce cross sea had been kicked up. Captain Eldredge steered the lifeboat under the lee of the Wadena, and the five men dropped into the boat. With the wind astern it seemed comparatively easy to gain the smooth waters behind the point. The seas were tossing and turning in the rips, and Capt. Eldredge was constantly looking for smooth spots. When about half way in he thought he discovered one over what is called a hole, and the boat sheered off for it. As she did so, a tremendous sea caught her under the stern, and she went over, throwing all the men into the water. The lifesavers clung to the boat, and managed to pull the Wadena men along with them. An attempt was made to reach the boat, but the lifesavers only managed to get her partly cleared when another wave again capsized her. Mr. Mack was the first to succumb, and one by one the others dropped away until there were only four left, and these climbed on the bottom of the overturned boat, fearfully exhausted. They drifted in the direction of the Fitzpatrick, where Captain Mayo of that craft saw them. With much daring he dropped a dory overboard, then jumping into it, started after the exhausted men. Before he reached the lifeboat three of them had fallen into the sea. Ellis managed to hold on and caught the rope which Captain Mayo threw to him. He was dragged aboard and then Captain Mayo pulled around the point into the smooth water and landed the only survivor of the 13 who started from the barge. Ellis was too exhausted to give any account of his experiences.

Two men still remain on board the barge Fitzpatrick, but the storm has subsided and they are in little danger.

At the freight sheds of the railroads the number of men left without immediate employment was less than 500.

They wish to join their forces, but rebels are holding all intervening passes and prevent a junction of the government troops. The following men were from the barge:

Robert Molneux, Boston, steward of the tug Peter Smith.

Walter A. Seved, Cottage City.

The scene of the accident was in the well known tide off Monomoy Point, which runs down from Chatham in Nantucket sound.

Last Thursday the barges Wadena and John C. Fitzpatrick, on the way to Boston with cargoes of coal stranded on the Shovelful shoals, about three-quarters of a mile off Monomoy Point. General Ma attacked the rebels' strongholds, but after an engagement lasting two days was forced to retreat. The rebels then established their headquarters at Fang Cheng.

The rebellion is spreading rapidly in the provinces of Kwang Si, Kwang Tung and Yun Nan. A letter received here from Tien Tai, 50 miles from Kwang Chou, says all business is suspended there owing to the fear of rebels.

Marshal Su is at Lieu Chou and General Ma at Kao Chou, both in Kwang Tung province. Both of the commanders are awaiting reinforcements. They wish to join their forces, but rebels are holding all intervening passes and prevent a junction of the government troops. Many of the imperial soldiers are joining the rebels, owing to superior pay offered them and opportunity for looting. The rebel leader is Hung Ming, a relative of the celebrated Hung So Chuen, leader of the Tai Hung rebellion.
